https://elenasacristan.github.io/MyResume

I studied a Bachelors degree in Engineering and I have been working in technical roles within the Market research industry for the last 10 years. In my last role I realised how much I enjoy working with Front End technologies, so I decided to study Software Development for a full year while continuing to work. In December I received my Diploma in Software Development with Code Institute and, at the moment, I am taking part in a Bootcamp at Kodiri to learn React, NodeJs, Agile and practice coding within a team of developers.

CORE COMPETENCIES

Front End		Back End & Databases			Other technologies		
HTML / CSS	jQuery	Python	NodeJs	MySQL	Heroku	Visual Studio Code	Trello
JavaScript	Bootstrap	Flask	Express	MongoDB	Git	Photoshop	Slack
React	Materialize	Django	SQL	Postgres		Fireworks	

EDUCATION

May 2020 - Current
Kodiri Bootcamp: Full time Bootcamp lasting until the end of June.
Main technologies: React - Nodejs - Express – Agile

November 2018 - November 2019
Diploma: Software Development (European qualification level 5), Code Institute.
Accredited by the Edinburgh Napier University.
Grade: First Class Honours

September 2001 - June 2006
Degree: Bachelor of Electronic Engineering, Universidad de Alcalá, Madrid

* September 2005 - June 2006 (Erasmus program)
B Eng Electronic Engineering Final Project - Letterkenny Institute of Technology, Letterkenny (Ireland)

PROJECTS

TreeBooks – Fourth milestone project - https://github.com/elenasacristan/treebooks
- ➢ e-commerce website for a fictitious charity ('TreeBooks') whose aim is to raise money by renting second-hand books
- ➢ HTML, CSS, JavaScript, jQuery, Python, Django, Heroku and Stripe

Time2Eat! – Third milestone project - https://github.com/elenasacristan/CookBook
- ➢ Website to keep recipes online, view recipes from other users, vote for recipes and see the ranking of the best cooks
- ➢ HTML, CSS, JavaScript, jQuery, Materialize, Python, Flask, MongoDB, Heroku and Stripe

HolidaysYa! – Second milestone project - https://github.com/elenasacristan/HolidaysYa
- ➢ Website to compare European holiday destinations based on the weather or a user's budget.
- ➢ HTML, CSS, JavaScript, jQuery, Bootstrap, D3.js, DC.js, Crossfilter.js and queue.js

The Monkees website – First milestone project - https://github.com/elenasacristan/the-monkees-website
- ➢ Fictitious website for The Monkees band where the users can learn more about the band, listen to their songs and keep up to date with the latest news.
- ➢ HTML, CSS, Bootstrap

WORK EXPERIENCE

August 2015 – May 2020
Senior Survey Scripter, Fusion Insight & Strategy, London
- ➢ Programming online market research surveys
- ➢ Improving the graphic design for the surveys and making them more user friendly (HTML, CSS and JavaScript)
- ➢ Creating templates which shortened the survey set up time
- ➢ Cleaning and analysing large data files
- ➢ Creating macros in Excel in order to automatise tasks, reducing the time to execute a task from several hours to only minutes
- ➢ Researching and testing different surveys platforms. Learning / adapting to different programming survey languages and settings
- ➢ Meeting very tight deadlines in a fast-paced business environment

June 2009 - August 2015
Sampling / DP Executive (Data Processing Team), Ronin Corporation, London
- ➢ Using SQL queries to analyse and update databases
- ➢ Setting up and sending emails to the respondents in the databases
- ➢ Constantly improving processes (i.e. automatising repetitive tasks using macros)

ADDITIONAL WORK EXPERIENCE

October 2008 - June 2009
I am originally from Spain and in October 2008 I moved to London in order to improve my English and travel around the rest of the UK, which I supported by working in various roles in the hospitality sector.

April 2007 - October 2008
Team Leader, Alfonso Benitez S.A. (group FCC. S.A.) Madrid, Spain
- ➢ Managing the street cleaning contract of two districts in Madrid and six recycling points
- ➢ Dealing with the client (city council) by phone and sending daily reports
- ➢ Communicating with all levels of the organisation, holding meetings with The Union Representatives Committee, H&S experts and the company director

September 2006 - April 2007
Technical Electronic Engineer, SICA S.A. Madrid, Spain
- ➢ Working on the design and installation of control and supervision systems for electrical substations
- ➢ My role was to create the interface (SCADA) so the workers could see the status of the electrical substations
- ➢ Our main client was the underground in Madrid (METRO) and I had to meet very strict deadlines

ADDITIONAL CERTIFICATIONS

April 2020   The Complete 2020 Web Development Bootcamp – Udemy (online course)

April - June 2010   EDEXCEL BTEC LEVEL 1 AWARD in Graphic Design (QCF), Waes (London)
                              Grade: DISTINCTION

HOBBIES & INTERESTS

I enjoy travelling and volunteering. The most rewarding travel experiences that I ever had were in 2012 when I went to Morocco to help orphaned children and in 2013 when I spent two weeks living with and supporting the Masai community in Kenya (www.originalvolunteers.com).

In my spare time I like to play beach and indoor volleyball and, at present, I am competing in the London League.

I also enjoy going to meetup events to meet people who share the same career interests and keep up to date with the latest in the tech industry.
